The Way to Cures and New Treatments

Sudden Increase in Drug Development
NephCure funds lab research

Encouraging Teamwork
100 of world’s top researchers, doctors, US government, patient representatives and drug industry working together to overcome barriers to trial recruitment

Expert Care
Providing access to NephCure Specialists, kidney doctors experienced in treating rare, protein-spilling kidney diseases like yours

Expanding the Community
Creating partnerships with advocacy groups and research organizations worldwide

Regional Volunteer Communities
Local groups providing support, education, and clinical trial awareness

NS Patients Needed for Drug Trials

More trials coming...
For every 1 patient connected to a trial, 20 patients must be contacted.

WE NEED YOUR HELP TO REACH ALL 80,000 ELIGIBLE PATIENTS IN THE US.

Contact a trial site near you.
