

NEPHCURE SPECIALIST DESIGNATION

REFERRAL SOURCES

Requests solicited from:

- Renal Pathologists
- NephroNet Investigators
- Midwest Pediatric Nephrology Consortium Investigators
- American Society of Pediatric Nephrology Members
- NephCure database of Health Care Providers
- Individual Health Care Providers (self-nominations accepted)

SELECTION CRITERIA

To be eligible for nomination, candidates are required to meet at least 4-5 of the following criteria:

- See patients with glomerular diseases
- History of research participation
- Participate in glomerular disease CME activities
- Designated glomerular disease specialist within their practice
- Demonstrated compassionate bedside manner
- Experience referring patients to clinical trials
- Willing to see patients for a second opinion

Specialists will be selected if they meet the above criteria and are recommended by NephCure's Selection Committee, composed of dedicated nephrologists and NephCure staff.
